SUMMARY

Computer Science graduate with hands-on internship experience as a Web Developer, specialising in frontend and full stack development. Proficient in JavaScript, TypeScript, ReactJS, Next.js, Node.js, and RESTful APIs. Experienced with Firebase, Supabase, MongoDB, and Google Authentication from delivering a production SaaS video learning platform. Familiar with Azure Functions, unit testing using JEST, Agile/Scrum workflows, and Git version control. Seeking to contribute to SaaS product development with a focus on performance-oriented, maintainable UI code and effective team collaboration.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, ReactJS, React Hooks, Context API, Next.js, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, Java, Core Java

Databases: MongoDB, MySQL, Supabase, Firebase Firestore

Cloud and DevOps: Azure Functions, Azure App Services (concepts), Git, GitHub, CI/CD practices

Testing: JEST (unit testing), debugging, cross-browser compatibility testing

Auth and APIs: Google Authentication (Firebase Auth), YouTube Player API, REST API integration

Practices: Agile, Scrum, SDLC, SOLID principles, code reviews, secure coding, technical documentation

WORK EXPERIENCE

Web Developer Intern | Creazione Software

Sep 2025 – Feb 2026

- Developed a full-featured Video Learning Platform (SaaS) using Next.js and ReactJS, delivering a production-ready web application with end-to-end feature ownership from requirements to deployment.
- Integrated Google Firebase Authentication to enable secure user login and session management; built a personalised user dashboard for course registration, progress tracking, and learning resumption.
- Embedded YouTube Player API within the React application to stream course videos in-app, managing playback state and course-completion tracking through React component logic.
- Implemented CRUD operations for course data management using Supabase and Firebase Firestore, ensuring consistent data handling across frontend and backend layers.
- Built responsive, cross-browser compatible UI components in ReactJS following established design standards; applied web performance techniques including optimised rendering and responsive layouts.
- Participated in code reviews, maintained technical documentation for all implemented features, and followed Git branching and merge workflows for source code management.

EDUCATION

Bachelor of Science in Computer Science

Rani Laxmibai College, Parola, Maharashtra

CGPA: 8.99 / 10

Jun 2021 – Jul 2024

Relevant Coursework: Data Structures and Algorithms, Web Development, Database Management Systems, Software Engineering

CERTIFICATION

Full Stack Web Developer Certification

Giri's TECH HUB Pvt. Ltd., Pune

Jun 2024 – Present

- Completed hands-on training in JavaScript, TypeScript, ReactJS (Hooks, Context API), Node.js, Express.js, REST APIs, MongoDB, and Azure Functions.
- Wrote unit tests using JEST, practised Agile/Scrum workflows, and applied secure coding and web performance optimisation techniques.

PROJECTS

Video Learning Platform | github.com/divyachavhan2002/video-learning-app

Tech: Next.js, ReactJS, Supabase, Firebase, Google Authentication, YouTube Player API, JavaScript

- Built a SaaS e-learning platform with user authentication, course registration, a personalised dashboard, and in-app video streaming using YouTube Player API.
- Implemented full CRUD operations for course management with Supabase and Firebase Firestore; maintained responsive and cross-browser compatible UI throughout.

Personal Portfolio Website | github.com/divyachavhan2002

Tech: HTML5, CSS3, JavaScript, Responsive Design

- Designed and deployed a responsive personal portfolio with focus on page-load performance, semantic markup, and cross-platform rendering consistency.

Serverless Backend Feature | github.com/divyachavhan2002

Tech: Azure Functions, Node.js, REST API, ReactJS

- Built a serverless backend feature using Azure Functions integrated with a React frontend, practising cloud-hosted application architecture and end-to-end feature delivery.
